PallMallUSA.com — Comprehensive Site Analysis

Executive Summary

PallMallUSA.com is an age-gated consumer brand website for **Pall Mall** cigarettes, operated by **R.J. Reynolds Tobacco Company** (a subsidiary of Reynolds American Inc. / BAT). The site requires 21+ age verification via RAI's shared VIA/SSO authentication system and serves as the primary digital engagement platform for adult smokers of Pall Mall cigarettes.

The site is built on **Adobe Experience Manager (AEM) as a Cloud Service** with a component-based architecture, integrating Adobe Marketing Cloud (Analytics, Target, Audience Manager, Launch), Brightcove video, Google Maps, Salesforce Live Chat, and a proprietary brand API at `api.pallmallusa.com`. Key differentiators from other RAI brand sites include a **community comment wall** with user-generated content, an **interactive history poll**, **Federal Court corrective statements**, and a **coffee-themed "Daybreak Giveaway" sweepstakes** with \$55,000 in prizes.

Product Classification: CIGARETTES (not smokeless/nicotine pouches — carries Surgeon General's Warning)

Migration Complexity: Medium-High — estimated **85-130 person-days** for full Edge Delivery Services migration.

SURGEON GENERAL'S WARNING: Smoking Causes Lung Cancer, Heart Disease, Emphysema, And May Complicate Pregnancy.

Q. How do I enter the *Pall Mall Daybreak Giveaway*?

A. All entries occur on the PallmallUSA.com website. Click on the indicated Promotion game link and follow the online instructions to play for a chance to win an Instant Win Prize and to be entered for the Giveaway Weekly Prize and the Giveaway Grand Prize. All entrants must have an account on the PallmallUSA.com website and a valid email address, in addition to other eligibility requirements ([See Official Rules](#)).

Q. Do I have to enter separately to win the Giveaway Weekly Prizes?

A. No. Each time you play the *Pall Mall Daybreak Giveaway* promotion during the promotion period, you will receive one entry into the Weekly Giveaway Drawing. The odds of winning a Weekly Giveaway Prize depend on the total number of eligible Giveaway entries received during the entry period. See [Official Rules](#) for more details.

Q. Do I have to enter separately to win the Giveaway Grand Prize?

A. No. Each time you play the *Pall Mall Daybreak Giveaway* promotion during the promotion period, you will receive one entry into the Grand Prize Drawing. Some plays will also result in an opportunity for an extra entry into the Giveaway Grand Prize. Limit of one additional Grand Prize entry per person per week. The odds of winning a Giveaway Grand Prize depend on the total number of eligible Giveaway entries received during the entry period. See [Official Rules](#) for more details.

Q. Am I required to enter the promotion daily to be eligible to win?

A. No. Every day is a new opportunity to enter for a chance to win an Instant Win Prize and gain an entry into the Weekly Giveaway and Giveaway Grand Prize drawing. Limit one Play per person per day (and, where applicable, one extra Grand Prize entry) per person per week. Repetition of play does not impact eligibility.

Q. How often can I enter *Pall Mall Daybreak Giveaway*?

A. Limit one Play per person per day and, where applicable, additional Grand Prize entry per person per week.

Q. How will I know if I won an Instant Win Prize?

A. A page will display notifying a potential Instant Win Prize recipient of the prize they could win, if they meet the qualifications and requirements, as described in the Official Rules. If the screen does not display a prize-winning message, the entrant is not a winner of an Instant Win Prize.

Q. How will I know if I won the Giveaway Weekly Prize?

The Giveaway Weekly Prize winner will be selected in a random drawing to be held on or about the drawing date (see [Official Rules](#)) from among all eligible entries received during the weekly Giveaway Period. All drawings will be conducted by the Administrator whose decisions shall be final. The potential Giveaway Weekly Prize winner will be notified by email and must complete the winner confirmation process to claim and receive a Giveaway Weekly Prize. See [Official Rules](#) for more details.

Q. How will I know if I won the Giveaway Grand Prize?

The Giveaway Grand Prize winner will be selected in a random drawing to be held on or about the drawing date (see [Official Rules](#)) from among all eligible entries received during the Giveaway Period. All drawings will be conducted by the Administrator whose decisions shall be final. The potential Giveaway Grand Prize winner will be notified by email/phone call and must complete the winner confirmation process to claim and receive a Grand Prize. See [Official Rules](#) for more details.

Q. If I have won, when should I expect to receive my prize?

A. Prizes will either be: 1) mailed to verified winners at street address provided in the confirmation process or 2) awarded a prize via email. Prizes will take approximately 4–8 weeks for delivery after winner verification. Prizes cannot be shipped to a PO Box. If a PO Box is associated with the address connected to your PallmallUSA.com registered personal profile information, please update your mailing address within your Username contact information on PallmallUSA.com website prior to entering the promotion. Upon winning, you'll be asked to confirm the shipping address once again where you'll have another chance to update the mailing address.

Q. Am I prohibited from participating if I live in a certain state?

A. Residents of MA, MI and U.S. Territories (and wherever prohibited by law) are not eligible to participate in this Promotion.

Q. What if I have a problem with my Instant Win prize, such as receiving a defective or damaged prize, or the wrong prize?

A. If you have an issue with your prize, please call 844-682-0554 for assistance.

Q. What if I have a technical problem with the website?

A. If you have a technical issue with the website, please call 1-888-566-5952 for assistance.

Q. Where can I find the Official Rules of the *Pall Mall Daybreak Giveaway* promotion?

A. Click here for [Official Rules](#).

5. Complex Use Cases & Observations

5.1 Community Comment Wall (Very High Complexity)

The Our History page features a **user-generated content comment wall** that is unique among the RAI brand sites analyzed:

- **User avatars and display names** from authenticated profiles
- **Timestamps** on each comment
- **Like/heart functionality** with real-time counts
- **Reply threading** (nested conversations)
- **Character limits** for comment input
- **Content moderation** (likely via brand API backend)

Migration Impact: This requires a complete backend service for comment storage, moderation, and retrieval. The UGC component would need custom block development with API integration, potentially using an external commenting service or custom Edge Delivery Services API routes.

Estimated Effort: 15–20 person-days for full implementation including backend, moderation, and frontend components.

5.2 Interactive History Timeline (High Complexity)

The brand history timeline spans from 1899 to Today with 6 distinct eras:

- Interactive navigation between time periods
- Rich content per era (text, imagery)
- Smooth transitions between periods
- Mobile-responsive timeline visualization
- Integration with poll and comment wall below

Migration Impact: Requires custom block development with JavaScript animation/interaction logic. The timeline data structure needs careful content modeling.

Estimated Effort: 8–12 person-days

5.3 Personalized Coupon System (High Complexity)

The coupons page demonstrates sophisticated personalization:

- **Dynamic greeting** using authenticated user's first name
- **"Mobile 3" badge** indicating user segment/tier
- **5-minute expiration timer** on coupon cards
- **4-step redemption flow** with visual progress
- **Backend coupon management** via `api.pallmallusa.com`
- **Personalization** driven by Adobe Target segments

Migration Impact: Requires custom API integration, timer components, and Adobe Target personalization setup. The coupon system is tightly coupled to the brand API backend.

Estimated Effort: 12–15 person-days

5.4 Federal Court Corrective Statements (Medium Complexity)

A legally mandated banner appears on the homepage (and potentially other pages):

"A Federal Court has ordered R.J. Reynolds Tobacco, Philip Morris USA, Altria, and Lorillard to make these statements."

This links to a #health-effects anchor with detailed health disclosures. This component is **legally required** and must be preserved exactly during migration.

Migration Impact: Simple component but requires legal review to ensure exact content preservation. Must be prominently displayed and not removable by content authors.

Estimated Effort: 2–3 person-days

5.5 Interactive Voting Poll (Medium Complexity)

The Our History page includes an interactive poll:

- Radio button selection from multiple options
- Submit/vote functionality
- Results display (likely percentage-based)
- Integration with brand API for vote storage

Migration Impact: Requires custom block with API integration for vote submission and results retrieval.

Estimated Effort: 5–7 person-days

5.6 Sweepstakes Game Mechanics (High Complexity)

The Daybreak Giveaway implements a multi-tier prize system:

- **Instant Win Game:** 250 prizes (\$100 each) via randomly pre-selected winning times
- **Weekly Drawing:** 10 prizes (\$2,000 each) via random selection
- **Grand Prize Drawing:** 1 prize (\$10,000) from all entries
- **Daily play limit:** 1 per person per day
- **Weekly instant win limit:** 2 per person per week
- **Extra Grand Prize entries** via bonus activities (videos, trivia)
- **Email notification** for winners
- **Affidavit/W-9 process** for prizes over \$2,000

Migration Impact: The game mechanics likely run server-side via the brand API. Frontend migration focuses on the entry UI, but backend sweepstakes logic would remain on `api.pallmallusa.com`.

Estimated Effort: 8–12 person-days (frontend only; backend service assumed to remain)

5.7 Salesforce Live Chat Integration (High Complexity)

The Contact Us page integrates Salesforce Live Chat:

- **Prechat form** with topic dropdown (8 categories)
- **Live agent routing** based on selected topic
- **Chat widget** with real-time messaging
- **Business hours** enforcement

Migration Impact: Requires Salesforce Chat SDK integration in Edge Delivery Services. Third-party script loading and initialization must be handled in the `delayed.js` phase.

Estimated Effort: 5–8 person-days

5.8 Service Worker / PWA Capabilities

The site implements a Service Worker with `pallmall-cache-config.json`:

- **Offline caching** for key assets
- **API request caching** for `api.pallmallusa.com` endpoints
- **Cache invalidation** strategies
- **PWA-like** behavior for mobile users

Migration Impact: Edge Delivery Services has its own caching strategy. The Service Worker would need to be reimplemented or replaced with EDS's built-in caching mechanisms.

Estimated Effort: 3–5 person-days

6. Migration Estimates

6.1 Summary Estimate

Category	Low Estimate	High Estimate
Design System & Global Styles	8 days	12 days
Header / Navigation / Footer	5 days	8 days
Authentication (VIA/SSO)	8 days	12 days
Homepage	5 days	8 days
Products Page	3 days	5 days
Coupons / Offers	12 days	15 days
Sweepstakes / Promotion	8 days	12 days
Our History (Timeline + Poll + Comments)	18 days	25 days
Store Finder	5 days	8 days
SMS Signup	2 days	3 days
Contact Us (Salesforce Chat)	5 days	8 days
FAQ Page	3 days	4 days
My Profile (MFA)	5 days	8 days
Legal / Compliance Pages (5 pages)	3 days	5 days
Service Worker / Caching	3 days	5 days
Integration Testing & QA	8 days	12 days
TOTAL	85 days	130 days

6.2 Effort Breakdown by Skill

Skill Area	Percentage	Days (Avg)
Frontend Development (HTML/CSS/JS)	35%	30–45 days
API Integration & Backend Services	25%	22–32 days
Authentication & Security	10%	8–12 days
Content Migration	10%	8–13 days
Design / UX Adaptation	10%	8–13 days
Testing & QA	10%	8–12 days

6.3 Critical Path Items

1. **VIA/SSO Authentication Integration** — Blocks all authenticated page development
2. **Brand API (api.pallmallusa.com) Integration** — Required for coupons, comments, polls, sweepstakes, profile
3. **Community Comment Wall** — Most complex custom component; no EDS equivalent exists
4. **Sweepstakes Game Engine** — Server-side logic must be preserved or reimplemented

5. **Federal Court Corrective Statements** — Legal compliance; must be exactly preserved
6. **Salesforce Chat Integration** — Third-party dependency requiring careful initialization

6.4 Risk Factors

Risk	Impact	Mitigation
Brand API availability/documentation	High	Early API discovery and documentation phase
VIA/SSO integration complexity	High	Engage RAI identity team early
UGC comment wall moderation	Medium	Evaluate third-party commenting services
Sweepstakes legal compliance	Medium	Legal review of all promotion-related content
Adobe Target personalization parity	Medium	Map all Target activities before migration
Service Worker compatibility	Low	Leverage EDS built-in caching

6.5 Recommended Migration Phases

Phase 1: Foundation (Weeks 1–3)

- Design system extraction and CSS custom properties
- Global components (header, footer, navigation)
- Authentication integration (VIA/SSO)
- Legal/compliance pages (static content)

Phase 2: Core Pages (Weeks 4–7)

- Homepage with Federal Court notice
- Products catalog
- Store Finder with Google Maps
- FAQ and Contact Us (with Salesforce Chat)
- SMS Signup

Phase 3: Complex Features (Weeks 8–12)

- Coupons/Offer with personalization and timer
- Sweepstakes entry and game mechanics
- Our History with timeline, poll, and comment wall
- My Profile with MFA

Phase 4: Polish & QA (Weeks 13–15)

- Integration testing across all pages
- Performance optimization (target: Lighthouse 100)
- Accessibility audit (WCAG 2.1 AA)
- Cross-browser and mobile testing
- Legal review of all compliance content

Appendix A: Technical Architecture Details

A.1 AEM Component Paths (Observed)

The site uses standard AEM as a Cloud Service component architecture with:

- Core Components (Tabs container, Accordion, etc.)
- Custom RAI brand components
- Brightcove video components
- Salesforce Chat integration components

A.2 Analytics Configuration

Adobe Analytics Configuration:

- Library: AppMeasurement v2.22.4
- Report Suite: raiservices.global.prod
- Tracking Server: raiservices.sc.omtrdc.net
- Organization: 02D9C50759DEA0920A495ED3@AdobeOrg
- Client Data Layer: v2.0.2 (74 events on homepage load)
- Page naming: "secure:page-name" pattern (e.g., "secure:my-profile")

Adobe Target Configuration:

- Library: at.js v2.11.4
- View tracking: Page load views with path-based naming
- Personalization: Active on homepage (dynamic content cards)

A.3 Brand API Endpoints (Inferred)

Base URL: api.pallmallusa.com

Likely endpoints:

- /auth/* — Authentication, MFA verification
- /coupons/* — Coupon retrieval, redemption, expiry
- /profile/* — User profile CRUD, preferences
- /comments/* — Community wall CRUD, likes, replies
- /polls/* — Vote submission, results retrieval
- /sweepstakes/* — Game entry, winning verification
- /stores/* — Store finder search, geolocation

A.4 Cross-Brand Comparison (RAI Sites)
