American Spirit Website - Comprehensive Site Analysis Report

Site URL: <https://www.americanspirit.com/> **Analysis Date:** March 31, 2026 **Prepared for:** AEM Edge Delivery Services Migration **Platform:** Adobe Experience Manager (AEM) as a Cloud Service

Executive Summary

The Natural American Spirit website ([americanspirit.com](https://www.americanspirit.com/)) is a tobacco brand consumer engagement platform built on Adobe Experience Manager (AEM). The site is gated behind age verification and user authentication (21+ tobacco consumers only). It features product catalogs, loyalty rewards programs, promotional campaigns, store locator with Google Maps integration, and user profile management with multi-factor authentication.

The site contains approximately **31 unique pages** across **9 distinct template types**, with significant complexity in authentication flows, loyalty program integrations, and dynamic content personalization via Adobe Target.

Migration Approach Summary

- **Automatically Migratable (~7 pages):** Legal/footer content pages with primarily static text (Privacy Policy, Terms of Use, Site Requirements, Tobacco Rights, SFNTC, Responsible Marketing, Text Messaging T&C)

- **Requires Manual Migration (~24 pages):** All pages with dynamic content, API integrations, authentication flows, interactive components, or personalized content

4. Integrations Analysis

#	Integration	Type	Complexity	Pages Used	Description
1	Adobe Experience Platform Launch (DTM)	Tag Management / Embed	High	All pages	assets.adobedtm.com - Tag manager loading 30+ extensions for analytics, targeting, audience management. Primary orchestrator for all Adobe integrations.
2	Adobe Analytics (App-Measurement)	API / Embed	High	All pages	raiser.services.sc.omtrdc.net - Full tracking suite with page views, events, visitor state, zip code, authentication status. Variables v1-v27+ tracked.
3	Adobe Target (AT.js)	API / Embed	High	All pages	Personalization and A/B testing. Console logs show "AT: View triggered" on every page. Used for content personalization and targeted experiences.
4	Adobe Audience Manager	API / Embed	Medium	All pages	AdobeMeasurement_Module_AudienceManagement.min.js - Audience segmentation and data management platform integration.
5	Adobe Client Data Layer	Embed / Custom Code	Medium	All pages	v2.0.2 - Standardized data layer for component-level analytics tracking across AEM components.
6	Google Maps API	API / Embed	High	Homepage, Store Locator	maps.googleapis.com with API key, weekly version, marker libraries. Interactive maps, geolocation, store results with directions.
7	Brand Site API	Custom API	High	All authenticated pages	api.americanspirit.com - Custom REST API for authentication, user profiles, offers, loyalty data, product data, notifications. Central backend service.
8	Loyalty Plus Platform	Custom Plugin	High	All authenticated pages	loyaltyplus/clientlibs - Spirit Circle rewards program. Member initialization, point tracking, tier management.
9	Google Fonts	Embed	Low	All pages	Lato font family (weights 300, 400, 700, 900) loaded from Google Fonts CDN.
10	MyFonts (Monotype)	Embed	Low	All pages	Custom brand fonts loaded from hello.myfonts.net

					(two font licenses tracked).
11	AEM RUM (Real User Monitoring)	Embed	Low	All pages	rum.hlx.page - Adobe Helix RUM for performance monitoring and user experience analytics.
12	Service Worker	Custom Code	Medium	All pages	resource-cache-service-worker.js - Custom service worker for offline caching and PWA-like features.
13	Age Verification Service	Custom API	High	Registration, Login	Third-party identity verification using SSN last-4 digits, government ID validation. Part of Brand Site API.
14	SMS/Text Messaging Service	API	Medium	SMS page	Mobile number collection, opt-in consent management, integration with R.J. Reynolds messaging platform.
15	Google Site Verification	Embed	Low	All pages	Meta tag verification for Google Search Console.

5. Complex Use Cases & Observations

5.1 Authentication & Session Management

Aspect	Description	Instance Count	Location	Why Complex
Age-Gated Access	Entire site requires 21+ age verification and account login. No anonymous access to any content.	Site-wide	All pages	Requires custom authentication flow with EDS; not standard EDS pattern. Must maintain session state across all pages.
Multi-Factor Authentication (MFA)	Profile page requires one-time passcode sent via email. Separate MFA flow from login.	1	My Profile	Additional auth layer mid-session; passcode validation, timeout handling, resend logic.
Forgot Username/Password	Separate recovery flows for username and password reset	2	Login page links	Form submissions, email triggers, token validation
Registration with ID Verification	New user registration requires age verification using last 4 digits of SSN and government ID	1	Registration flow	Third-party verification API, legal compliance, error handling

5.2 Dynamic & Personalized Content

Aspect	Description	Instance Count	Location	Why Complex
Personalized Greetings	"Hello, [FIRST NAME]!" displayed with user's actual name from session	2+	Offers, Homepage	Requires API call to resolve user data; fallback handling
Adobe Target Personalization	Views triggered per page for A/B testing and targeted content variations	All pages	Site-wide	Content may differ per user segment; testing requires multiple scenarios

Notification Center	Dynamic notification count badge, offer alerts pulled from API	All pages	Header	Real-time API polling, unread state management
Geolocation-Based Content	Product availability varies by state; store results by location	2	Products, Store Locator	User state tracking (MD/zip 21043 detected), state-specific product restrictions
Offer Eligibility	Offers displayed based on user eligibility status, loyalty tier, geographic location	1	Offers page	Complex business rules, session-dependent content

5.3 Interactive Components

Aspect	Description	Instance Count	Location	Why Complex
Product Card Flip Animation	3D flip interaction showing product front/back with details	4+ cards	Homepage, Products	CSS 3D transforms, touch/click interaction, responsive sizing
Flip Card Grid	Information cards with front image and back content	6+ cards	Our Difference, Earth Day	Different from product flip; various content types on back
Video Background Hero	Looping background video with text overlay and CTA	2	Homepage, Earth Day	Video performance, mobile fallback, autoplay policies
Animated Counter	"302,266,583 Butts Collected" with number animation	1	Homepage	Number animation on scroll, potentially real-time data
Product Filter System	Filter products by style (Signature/Organic) and taste (Mellow/Full-Bodied)	1	Products page	Dynamic DOM manipulation, multi-criteria filtering, state persistence

5.4 Regulatory & Compliance

Aspect	Description	Instance Count	Location	Why Complex
Surgeon General Warnings	Mandatory health warning images in footer of every page	All pages	Footer	Must be present on every page; regulatory requirement
Safety Disclaimers	"Organic tobacco does NOT mean a safer cigarette" and similar	All pages	Footer	Multiple disclaimer images required
Age Restriction Notices	21+ age requirement notices throughout the site	Multiple	Login, Registration, SMS	Legal compliance text must be preserved exactly
State-Specific Restrictions	"Some styles may not be available in your state"	1	Products page	Content varies by user location

6. Migration Estimates

6.1 Effort Breakdown

Phase	Task	Effort (Days)	Notes
Phase 1: Foundation			
	Project setup & EDS boilerplate	1	Standard EDS project initialization

	Design system extraction (colors, fonts, spacing)	2	Brand-specific yellow/red theme, custom fonts from MyFonts
	Global header block (with hamburger nav)	3	Complex responsive nav, notification center, rewards CTA
	Global footer block (with disclaimers)	2	Multi-tier links, warning images, regulatory content
	Authentication integration planning	3	Custom auth service integration architecture
	Phase 1 Subtotal	11 days	
Phase 2: Core Blocks			
	Hero Banner (video + image variants)	3	Video background handling, responsive design
	Product Card Carousel with flip	5	3D flip animation, responsive grid, product data
	Flip Cards Grid	3	Front/back interaction, multiple content types
	Accordion component (3 variants)	2	FAQ, step, and section variants
	Store Locator block (Google Maps)	5	Maps API integration, geolocation, store data
	Product Filter system	4	Multi-criteria filtering, dynamic UI
	Sustainability Counter	1	Number animation, scroll trigger
	Community Signup / CTA blocks	1	Form handling, validation
	Timeline component	2	Responsive timeline layout
	Three-column feature cards	1	Standard card grid
	Sub-navigation tabs	1	Sibling page navigation
	Promo/CTA banners	1	Yellow background CTA strips
	Phase 2 Subtotal	29 days	
Phase 3: Authentication & API			
	Login/Registration page & forms	5	Auth flow, age verification, session management
	MFA implementation	3	Passcode flow, email trigger, validation
	Brand Site API integration layer	5	REST API client, token management, error handling
	Loyalty Plus integration	5	Rewards program, points, tiers, catalog
	Notification system	2	API polling, badge updates, offer links
	Phase 3 Subtotal	20 days	
Phase 4: Content Migration			
	Auto-migrated legal pages (7 pages)	1	Mostly static text content
	Homepage content migration	2	Complex layout, multiple sections
	Product catalog content	2	Product data, images, descriptions
	Brand story pages (4 pages)	2	Content + interactive components
	Campaign pages (3 pages)	2	Seasonal content, multimedia
	Form pages (2 pages)	1	SMS signup, rewards enrollment
	Offers page	2	Personalized content, API-dependent

	Profile page	2	Form fields, MFA, API integration
	Rewards pages (5 pages)	3	Loyalty platform data
	Store locator content	1	Configuration + content
	Phase 4 Subtotal	18 days	
Phase 5: QA & Testing			
	Functional testing (all blocks)	5	Block-by-block verification
	Cross-browser testing	3	Chrome, Firefox, Safari, Edge
	Mobile/responsive testing	3	iOS, Android, tablet, desktop
	Accessibility audit (WCAG 2.1 AA)	3	Screen reader, keyboard nav, contrast
	Performance optimization (Lighthouse 100)	3	LCP, CLS, FID optimization
	Authentication flow testing	3	Login, MFA, session, registration
	Integration testing (APIs, Maps, Analytics)	3	End-to-end API verification
	Regression testing	2	Full site regression
	UAT support	3	User acceptance testing support
	Phase 5 Subtotal	28 days	

6.2 Summary Estimates

Category	Effort	Duration
Automated Migration (static content)	1-2 days	Week 1
Manual / Custom Migration (interactive pages + blocks)	76 days	Weeks 2-12
QA & Testing	28 days	Weeks 10-14
Buffer & Contingency (15%)	16 days	Throughout
Total Estimated Effort	~122 person-days	
Recommended Team Size	3-4 developers	
Estimated Calendar Duration	14-16 weeks	

6.3 Risk Factors

Risk	Impact	Mitigation
Brand Site API documentation unavailable	High	Early API discovery and documentation phase
Loyalty Plus platform migration complexity	High	Dedicate specialist for loyalty integration
Age verification / regulatory compliance	High	Legal review of all compliance content
Adobe Target personalization rules	Medium	Export and recreate targeting rules
State-specific product restrictions	Medium	Confirm business rules with product team
Custom font licensing (MyFonts)	Low	Verify font license covers EDS delivery
Video content optimization	Medium	Transcode videos for EDS delivery

6.4 Recommended Migration Approach

- Phase 1 (Weeks 1-3):** Foundation setup, design system, global components (header/footer)

2. **Phase 2 (Weeks 3-7):** Core block development - start with simpler blocks, build toward complex interactive ones
3. **Phase 3 (Weeks 5-9):** Authentication and API integration layer (can overlap with Phase 2)
4. **Phase 4 (Weeks 8-12):** Content migration - auto-migrate legal pages first, then manual pages
5. **Phase 5 (Weeks 10-14):** QA, testing, performance optimization, UAT
6. **Go-Live (Week 15-16):** Staged rollout with monitoring
